

S-DIAL OUTDOOR

Controller 24 Vac

DESCRIPTION

S-Dial (Smart Dial) is a unique controller that bridges tradition to future.

Thanks to a graphic display is possible to see all the programs and the setting of the controller in a clear and user-friendly way. The controller has 4 programs and can be installed indoor or outdoor.

Using S-Dial it's possible to upgrade the functionality of the irrigation installation thanks to the fact that it is FLIWER COMPATIBLE.

It means that it is possible to connect S-Dial to a Fliwer Sensor or to a Link in order to manage remotely the irrigation and save water (at least 50%) through the Fliwer technology.

TIMER MODE - following the traditional way to program irrigation controllers

FLIWER MODE - being totally managed by the artificial intelligence of Fliwer system

TECHNICAL CHARACTERISTICS
